

<https://developer.orange.com/apis>

The screenshot shows the top navigation bar of the Orange Developer website. It features a black bar with a 'Log in' link and a user icon. Below this is a white navigation bar with the 'Orange Developer' logo, links for 'Products', 'Support', and 'Blog', a search icon, and a 'My apps' button. A large orange arrow points from the text 'Sign in' to the 'Log in' link. The hero section below has a dark background with the text 'Discover and consume Orange APIs in minutes' and a photo of two people working at a computer.

New account (first time)

The screenshot shows a web browser window with the URL `https://developer.orange.com/signin`. The page features the Orange Developer logo and navigation links for APIs, Tools, and Support. A central sign-in form includes fields for Email and Password, a Sign in button, and a Forgot password? link. Below the form, there is a 'Create new account' button, which is highlighted by an orange arrow pointing from the text 'Create new account' on the right. The page also includes a footer with social media links and a list of links under categories: APIs, Tools, Support, and More.

App creation

The screenshot shows the Orange Developer web interface. At the top, there's a navigation bar with the Orange logo, 'Orange Developer', and links for 'APIs', 'Tools', and 'Support'. A 'My apps' button is on the right. Below this, the user is logged in as 'Denis ALLIOT'. The main content area shows 'My apps > BusinessAppsTestPartner'. Under the 'Details' section, the app name 'BusinessAppsTestPartner' is displayed with an 'Edit' button. Below that, the 'Application ID' is shown as 'jKWULh6VYr1UJVDG'. The 'Client ID' is shown as a series of dots, with a status of 'Pending' and a 'Client secret' field also containing dots. An orange arrow points from the 'Client secret' field to a text box that says: 'You get your credentials needed to obtain an access_token (OAuth 2.0) and be able to invoke Orange Business Applications API (asynchronous responses)'. Below the details, the 'Subscribed APIs' section is empty, with a message: 'You have not yet subscribed to any APIs for this app. Add an API now to activate your client ID.' An orange arrow points from this message to a '+ Add an API' button. At the bottom right, there is a 'Delete app' button.

Orange Business Applications is included in your App, click on configure button to provide technical information required to allow Orange to connect to your API endpoints
