

# Live Identity Captcha

Tell computers and humans apart thanks to an Orange Business Services solution.

## Anti-bot solution, 100% French and GDPR-compliant

37% of the Internet traffic worldwide is actually performed by automated programs (e.g. credential stuffing or web scraping).

Orange Business Services offers **Live Identity – Captcha**, which allows to:

1. Generate a **captcha**: in **text** (distorted figures and/or letters) or **audio** (available for sight-impaired through audio phrases)
2. **Integrate** the generated captcha **in your Web page**
3. **Check** a user's **input** against the generated captcha

[Contact us](#)

Available for all **private or public actors**, this solution of **automated tests** allows to check that the user of your Web sites or mobile apps is indeed human and not a bot.

- Solution **100% French**
- Compliant with **GDPR** requirements
- Compliant with **CNIL** recommendations
- Secured and audited by the **ANSSI** (French National Agency for the Security of Information Systems)
- 2 hosting options: either **SaaS** (Software as a Service) or **On-Premises** (on your servers).

Tessi souscrit à l'offre  
**Captcha d'Orange Business Services,**  
**100% RGD compliant**

### Customer success story

In April 2021, [Tessi](#), major European actor for companies' digital transformation, installed solution Live Identity-Captcha in SaaS mode, on its corporate site so as to secure contact Web forms, prospect feedback, etc...

"Thanks to Orange Business services, we now have a solution hosted in France, highly available and GDPR-compliant, which respects information confidentiality." quotes Amine Talbi, Group Data Protection Officer at Tessi.
